PHANTOM – Rescue manikin

Phantom is rugged and durable and is designed to operate in nearly any environment or weather to support real-world training scenarios

Our manikin is a **popular choice** for most rescue scenarios typically practised by **emergency rescue professionals**:

- Military
- Law Enforcement
- Fire Departments
- EMS, USAR, HAZMAT/CBRN Units
- Mountain Rescue

A photograph of the Phantom rescue manikin lying on a red stretcher. The manikin is wearing a green jacket and has a blue water bottle attached to its side. A small pink tag is visible on the jacket.

Manikin is made from **certified materials (EN ISO)**
Strong **webbing loop** with very high mechanical
strenght up to 1100kg (2425 lbs).

Manikin features:

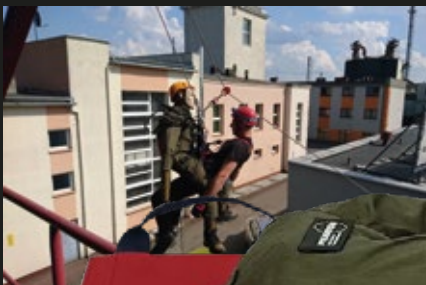

- Airway cavity for supraglottic airway responds to BVM/face mask or oropharyngeal
- Nasal passageway for nasopharyngeal
- Upper airway suction
- Breath sounds- speaker and sounds files included
- CPR
- Limbs can be partially detached (amputations)
- Wound packing pocket in armpit area
- Soft body joints eliminate the risk of pinch welts and bruising, a common injury when using plastic bodied manikins

Every manikin set include:

- Stretcher
- Small wounds (Penetrating chest wounds)

Dimensions:

- height: 180-190 cm (70-75 in)
- weight: 50-90 kg (110-198 lbs)
